-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to issuing a certificate of insurance over a computer network, classified in class 705, subclass 4.
  - II. Claims 11-18, drawn to generating a certificate of insurance through a Web site, classified in class 705, subclass 4.
  - III. Claims 19-28, drawn to displaying selected types of insurance associated with an insured, classified in class 705, subclass 4.
  - IV. Claims 29-32, drawn to comparing insurance policy information with insurance requirements for a job and generating a certificate of insurance, classified in class 705, subclass 4.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I - IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as issuing a certificate of insurance in response to a request for the certificate of insurance and a security check with regard to the request. Invention II has separate utility such as generating a certificate of insurance by forming a complete sentence based upon received text to be entered into a remarks box within a requested certificate. Invention III has separate utility such as associating selected types of insurance with an insured and displaying only the selected types of insurance. Invention IV has separate utility such as associating a set of insurance requirements with a job and generating a certificate of insurance including the results of a comparison between the insurance requirements and insurance policy information. See MPEP § 806.05(d).

Art Unit: 3626

3. Because these inventions are distinct for the reasons given above and the search required for each invention is not required for the other, restriction for examination purposes as indicated is proper.

4. No telephone communication need be made where the requirement for a restriction is complex, the application is being prosecuted by the applicant *pro se*, or the examiner knows from past experience that an election will not be made by telephone. See MPEP § 812.01. In the present instance, it is deemed that the restriction is complex enough to require a written explanation of the distinction between the inventions. Hence, no telephonic restriction was made.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Luke Gilligan whose telephone number is (703) 308-6104. The examiner can normally be reached on Monday-Friday 8am-5:30pm.

8. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Thomas can be reached on (703) 305-9588. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
